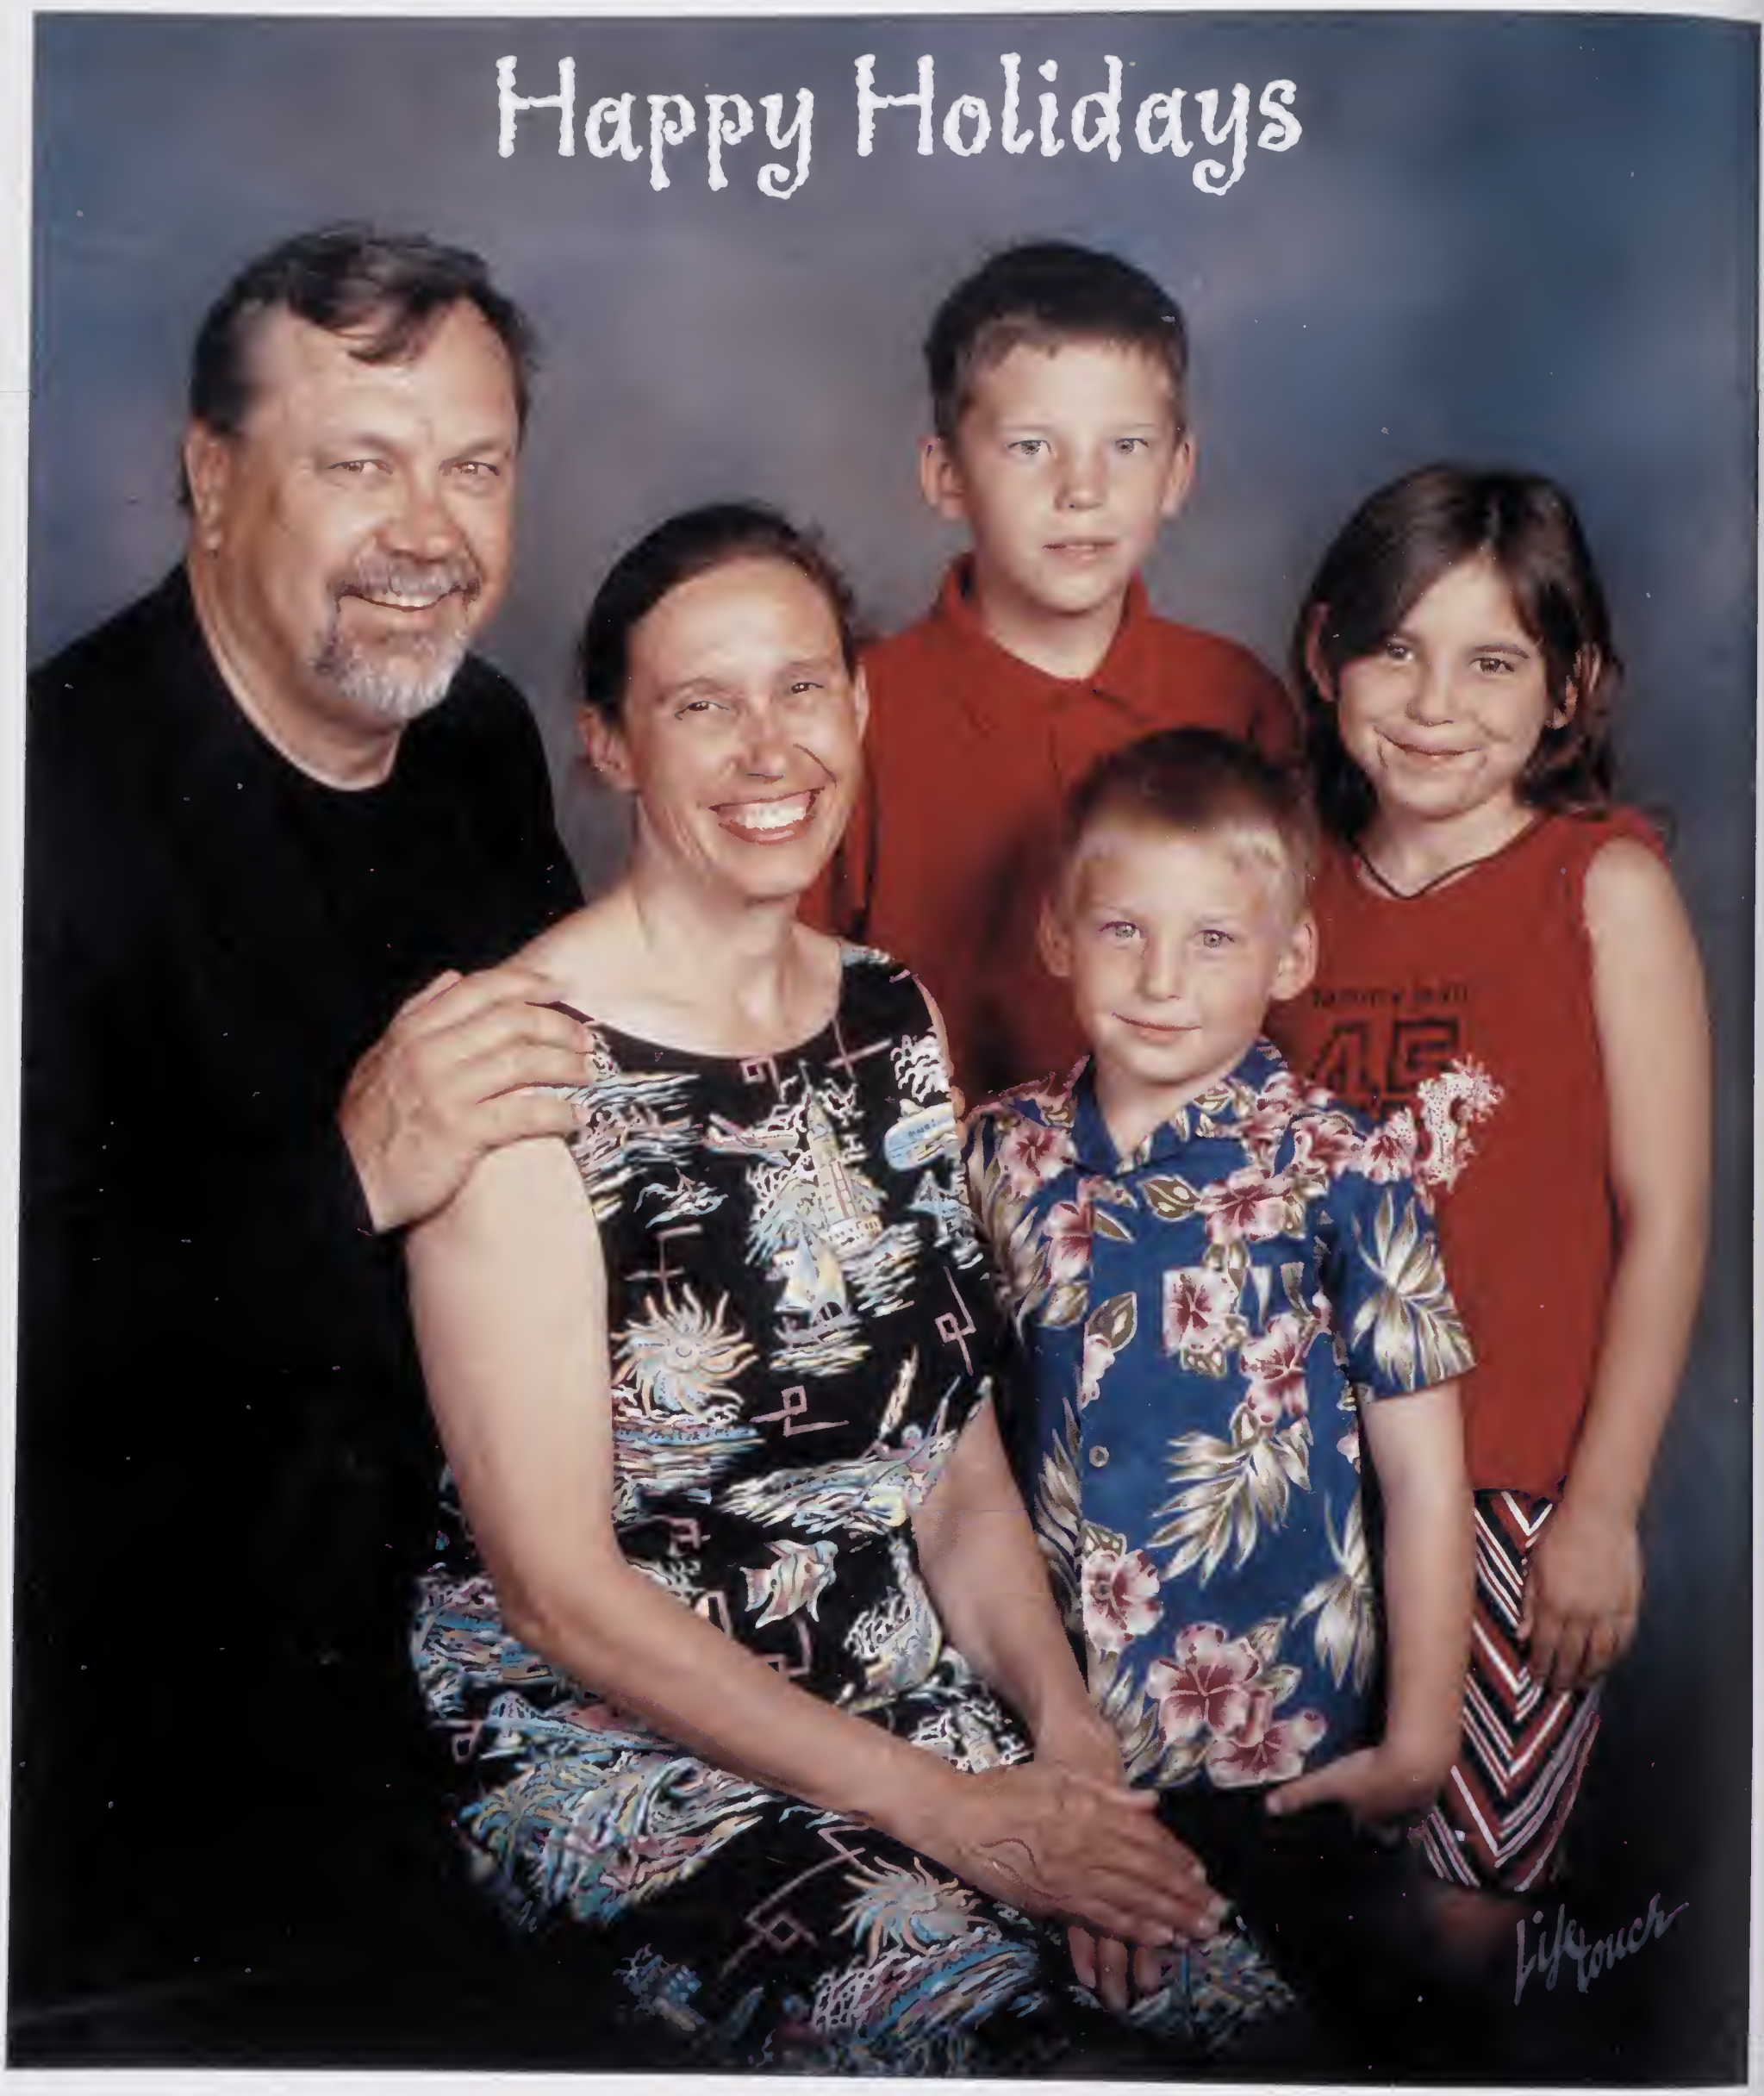
Happy Holidays



from the McCawley Family

"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundred fold, in some cases almost incalculably; unreasonably; and speculation has been rife . . .

(from The American Journal of Numismatics, Vol. 1, No. 1, May, 1866.)

OUR TERMS OF SALE

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee. Over ten years of business I have never had to make good on this promise. But I make it anyway for your protection.

2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.

3. A full thirty day return privilege is allowed on all purchases. Returns may be made for any reason, or for no reason. My business depends on attracting repeat customers. It does neither one of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been optimistic about the grade. It can happen. But it is not my intention. I encourage you to use the thirty days as an approval period. Feel free to show your purchases to other knowledgeable EAC members. Get a second opinion. All sales are final after the thirty day period, though I will certainly consider an extension upon reasonable request.

4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request. We also accept VISA or MASTERCARD.

5. All orders are sent postpaid.

6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct from the technical grade based on their presence. As an example a coin might be described: "1805 S-267 VF20. Sharpness of VF30 with smooth brown surfaces, some light pin scratches where corrosion was removed at K1 reverse." Here is a coin VF30 by ANA standards but with scratches at one o'clock on the reverse. Plainly the coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an art and elements of subjectivity are inevitable. Where there is no second grade listed it is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase. No unpleasant surprises!

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC ratings as compiled in Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings, die state, and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgements and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. I have yet to meet anyone who has bought coins merely as an investment who has realized a net return upon liquidation. I have, however, met numerous serious collectors, who having formed a discrimination collection over a period of years realized a substantial profit when their collection was ultimately sold. Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuits have been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin dealers are often more than willing to give investment advice. As my good friend Jack Robinson (whose collection did very well for him when it was sold in 1989) likes to say: THINK ABOUT IT! When you ask a cat which canary to buy remember his first concern may not be how well it sings. There are may opportunities to do well financially in rare coins. But as with any other medium of investment, success is the result of a combination of knowledge, good timing and the ability to wait for the right time to sell. Commit yourself to the process of becoming an educated collector and you stand a good chance of success.

COLONIALS

1722 WOOD'S HIBERNIA HALFPENNY-TYPE 1, HARPLEFT BREEN 144 AU58 $ 1,200.00
A true slider UNC with just a trace of cabinet friction preventing it from grading at least MS64, as its surfaces are both hard and immaculate. Brilliant light brown toning, a true prize. This variety has 9 harp strings.

1767 FRENCH COLONIES COPPER SOU WITH "RF" $ 125.00
COUNTERSTAMP BREEN 701 VF20 187 gns. Glossy chocolate and olive brown with medium brown toning covering the highpoints, the contrast accenting the details. No marks or other notable defects. The "RF"counterstamp is strong. Ex. R. Adam.

1785 CONNECTICUT M.3.1-A MBR $ 125.00
R4 F12 141.6 grains. Light golden brown with fine porosity. Centers Show detail of at least a Strong Fine, but with peripheral weakness.

1785 CONNECTICUT M.3.5-B MBR $ 150.00
HIGH R5 F12 140.7 gns. Quite pleasing for the grade. Contrasting medium brown and tan surfaces that are only minimally granular and quite reflective. Legends are full though INDE is faint and the date is fragmentary. Free of striations and problem free.

1785 CONNECTICUT M.4.4.-C MBR $ 125.00
R3 F12 129.1 grains. Light chocolate brown with light granularity. The obverse is relatively free of striae for a 1785 issue while the reverse has two long narrow striations and some assorted other striae. A small clip at 1:00 takes the bottom off the 5 of the date.

1786 CONNECTICUT M.4.1-G MBL $ 65.00
HIGH R3 G6 137.8 gns. Nice light brown toning, some fine porosity but mostly smooth. Legends and date weak, and partially off the flan to the right. Reverse roughened by striations at the right.

1786 CONNECTICUT M.5.3-N MBL $ 2,450.00
R2 EF40 130.2 grains. The "Hercules Head" Type, a superb problem free example of this major Type struck from the late state of the reverse die. Chocolate brown glossy surfaces. Clashing is evident in all the legends and it is dateless due to the die state. This coin is finer than any of the Perkins coins, and far nicer than the late die state example in that collection. This coin is suitable for the finest of Type collections.

1787 CONNECTICUT M.8-O MBL $ 195.00
R3 F12 133.0 gns. A potentially under rated variety that seems scarcer than the Rarity 3 traditionally assigned it. An attractive coin . Contrasting medium and pale brown surfaces that are slightly grainy and nicely reflective. A rough patch below the second N of CONNEC, and a few small shallow voids left of and below Liberty. The strike is uneven, strong at obverse top and weakening below. Obverse legends are full, mostly bold. Reverse left legend quite faint. Date virtually full.

1787 CONNECTICUT M.1.1-A MBR $ 350.00
R3 VF20 110.7 grains. The Small Head/ETLIB INDE Type. Mixed deep olive browns and greens, both sides evenly granular, but not dull. One scratch right of reverse figure in field. Clear legends and date.

1787 CONNECTICUT M.4-L MBL $ 130.00
R1 VF20 113.9 grains. The "Horned Bust". Early intermediate die state, here the horn is just starting to form in the left obverse field, but is still fairly small. Dark brown fields, raised points slightly lighter. Very small cut in the rim at 12:30.

1787 CONNECTICUT M.19-g.4 DBL $ 75.00
R3 VG10 119.7 grains. Even chocolate brown on essentially smooth surfaces. Late die state with the bulge covering the top of the date, but the legends are full and clear.

1787 CONNECTICUT M.26-AA DBL $ 110.00
R5 VG8 137.4 gns. Medium brown surfaces dulled by microscopic porosity and some very shallow areas of fine corrosion. Legends bold, central devices weak. Date is full though both 7's are faint.

1787 CONNECTICUT M.26-kk.1 DBL $ 175.00
R5 VF30 131.6gns. Light brown and reflective, the obverse pleasing for the grade with smooth surfaces and few marks. Unfortunately, there are a number of short scratches at each side of Liberty's head. While the obverse legends are strong, IND of INDE is faint, and half of the date is falling off the planchet. Ex. Pine Tree Breen III Sale 9/83:230.Ticket not included. Via Doug Winter.

1787 CONNCECTICUT M.32.3-X.4 DBL $ 150.00
R2 VG10 151.9 gns. A great coin for the grade. Light chocolate brown, some fields deeper. Nice smooth surfaces. Full legends, virtually full date, and problem free.

1787 CONNECTICUT M.33.17-gg.2 DBL $ 395.00
R5 VF20 125.2 grains. A ET LIR Type. A pleasing light chocolate brown coin with some details fully VF. Surfaces are smooth and glossy, with very few marks on them. Struck low obverse, high reverse. Quite attractive.

1787 CONNECTICUT M.33.2-A.17 DBL $ 550.00
R6 VF20 136.4 grains. A rare variety, with just 25 specimens traces. Predominantly light brown with darker shadowing by the legends, the obverse is smooth and reflective with a single scratch at the neck. The reverse center, however, has been scraped by numerous significant scratches. The characteristic reverse left die break is clear and unaffected.

1787 CONNECTIUCT M.33.2-Z.5 DBL $ 145.00
R1 F12 120.6 gns. Very even dark olive toning and very even fine granularity on both sides, the surfaces remaining quite reflective. Full strong legends, the date half off due to centering.

RARE 1787 M.33.2-Z.21

1787 CONNECTICUT M.33.2-Z.21 DBL $ 225.00
R6 F12 139.9 gns. Mottled brown tan and ruddy toning with some patches of black corrosive products on each side. Not surprisingly, surfaces are rough in places, elsewhere smoother. Several obverse rim nicks. Full sharp legends and date. A rare variety with approximately 25 currently known, most in low grades.

1787 CONNECTICUT M.33.5-T.2 DBL $ 95.00
R5 G6 109.7 gns. Light brown color, but cleaned. Porosity on each side, and numerous minor scratches. Full legends and date.

1787 CONNECTICUT M.33.5-T.2 DBL $ 195.00
R5 VG10 133.2 grains. A Skeleton Hand Type. An out and out lovely coin. This coin is as perfect as a coin can realistically be at this grade. A honey brown glossy problem free planchet with an even strike perfectly centered upon it. Ex. M & G 11/02 C4 Sale lot # 294.

1787 CONNECTICUT M.33.7-r.2 DBL $ 95.00
R1 F12 A pleasing coin with very fine granularity, but very reflective dark and medium brown surfaces. All legends and date strong and full.

1787 CONNECTICUT M.33.7-r.2 DBL $ 145.00
R1 F12 139.6gns. Deep mahogany brown fields, a lighter brown at legends and devices. Smooth and reflective for the grade. Small shallow flaw at obverse ear. Bold full legends and date.

1787 CONNECTICUT M.33.15-r.1 DBL $ 275.00
R2 VF25 A glossy and attractive coin with light chocolate devices, and toning that darkens as it moves out towards the rims. Essentially free of surface marks.

1787 CONNECTICUT M.33.19-1.1 DBL $ 265.00
LOW R4 F12 108.7 grains. From the late obverse die state. Nice detail and glossy for the grade with a pleasing mix of darker and lighter brown. The obverse die here showing incusations in left obverse field and bulging from below the front part of bust through the area above AUCTORI.

ATTRACTIVE 1787 M.33.23-Z.4

1787 CONNECTICUT M.33.23-Z.4 DBL $ 285.00
R5 VF25 136.8 gns. A far above average example of this searcer variety, with the obverse typically softer struck than its reverse. Predominantly medium and light browns, darker at points. Highly reflective slightly rough surfaces. Planchet cracked at 7:00 obverse with a significant portion laminate. Obverse shows unusual strength for this die pairing.

1787 CONNECTICUT M.33.29-Z.7 DBL $ 625.00
R6 VF 20 125.2 grains. The surfaces on this coin are essentially choice tan. Glossy. This is, however, a difficult coin to describe due to the elliptical flan it is struck on, as well as the advanced, deteriorated state of the obverse which shows extensive die bulging. There are myriad light die breaks including one from effigy's chin and fainter ones also in the lower left obverse field. The reverse is without detail in the lower drapery as well as the date area due to striations in the planchet at that point. Still a highly pleasing coin in fact.

1787 CONNECTICUT M.33.38-Z.6 DBL $ 135.00
HIGH R5 F12 141.8 gns. The obverse is mostly dark brown with some lighter high lights, the reverse is lighter in tone, with darker color in much of the fields. The date obscured by bulging.

CONDITION CENSUS LEVEL 1787 CONNECTICUT M.33.38-Z.23

1787 CONNECTICUT M.33.38-Z.33 DBL $ 600.00
HIGH R5 VF30 138/3 grains. Light chocolate brown with a scattering of fine porosity. Some natural planchet roughness on the central devices of each side, with perhaps a few minor contact marks mixed in. Strong date and legends. Though not choice, this coin has an overall pleasing appearance. The Hall/Hessberg Choice VF coin is more evenly struck, this one is stronger where struck up. Since some have called the Hessberg coin "finest known", the current coin at the very least would be difficult to improve on.

1787 CONNECTICUT M.33.43-hh.2 DBL $ 295.00
LOW R6 VF20 120.0 gns. Predominantly tan surfaces, though with deep maroon staining in several areas on both sides, the latter spots showing light corrosion also. Also rough along the upper reverse, with Liberty's head not struck up. There are also retained obverse laminations in the field left of the head. Surfaces are nicely reflected.

1787 CONNECTICUT M.36-1.1 DBL $ 85.00
R5 G4 135.0 gns. Predominantly dark gray brown and quite rough from porosity on both sides.

1787 CONNECTICUT M.37.3-i DBL $ 110.00
R5 F18 124.5 grains. Tan on a reasonably smooth planchet. Full clear legends and date.

1787 CONNECTICUT M.37.5-e DBL $ 285.00
R3 VF25 141.3 gns. Mid golden brown with golden tan at some high points. Scattered fine porosity, rather like micro pitting, on both sides with striation added at the left rim in towards the center. A few specs of ancient verdigris at the upper obverse rim. Surfaces are reflective and many details are sharp. Off center left each side with top of AUC partial, the same with DE of INDE on reverse. Sharp date. Ex. N.E.R.C.A. 7/76 Buckley Collection Sale lot 133. Ticket not included.

1787 CONNECTICUT M.37.8-LL DBL $ 125.00
R5- VG7 150.9 gns. OFF CENTER. Glossy chocolate and lighter brown with small splashes of darker olive toning on the obverse. A couple small rim nicks but a solid planchet with just a few spots of trivial roughness. Struck 5% off center to K-4. The lower half of the date is very weak but the upper half remains visible.

1787 CONNECTICUT M.37.8-LL DBL $ 150.00
HIGH R5 VG8 130.7 gns. Glossy light brown surfaces. Smooth save for trace striae, and problem free. Weak at center reverse, but strong full legends and date.

1787 CONNECTICUT M.37.11-ff.2 DBL $ 550.00
R5 VF25 165.6 grains. An ET LIR variety. An attractive example of this variety, and an attractive coin period. Also an important example f this variety which seldom comes in upper grades. Toned a light golden brown with smooth and attractive surfaces. One finer than the more striated VF Perkins coin which was there called technically in the top ten. Finer too than the Taylor coin. Surpassed by the Oechsner VF and by the Pine Tree EAC 75 coin, which though striated, had very sharp detail. This coin should make the low end of the Condition Census.

1787 CONNECTICUT M.38-1.2 DBL $ 95.00
R4 VG8 120.1gns. The AUCIORI Type. Nicely contrasting two tone browns, evenly granular and reflective. Full legends and date. A virtual crack flaw runs across most of each side's surfaces.

1787 CONNECTICUT M.44-W.4 DBL $ 65.00
R4 G6 126.5 gns. Medium brown matte like surfaces. Full legends and date.

1788 CONNECTICUT M.11-G MBL $ 95.00
R2 F18 116.9 gns. Quite dark olive brown and reflective. A bit pebbly but not excessively so. One major toned obverse scrape from 1 of legend across face to chest. Full sharp legends and date.

1788 CONNECTICUT M.15.1-L.1 DBL $ 75.00
R4 G6 156.9 gns. Dark and reflective with somewhat rough surfaces. Dark brown with scattered areas of ruddy and green toning. Full obverse legends. Date and most of right reverse legends lost due to centering.

1788 CONNECTIUCT M.16.2-O DBL $ 225.00
R5 G6 140.1 gns. Interesting for its die state. Contrasting dark olive fields. Some scattered fine porosity but with a smooth look. Obverse is off center right with those legends virtually gone to wear and off centering. The reverse here shows massive die failure in a swath across the coin from 11:00 to 5:00. This may be the terminal state for this reverse.

1786 NEW JERSEY M.24-P R2 AU50 $1,850.00
135.1 grains. Light brown with wonderful gloss and uniformly crisp details on each side. Totally free of problems, it does, however, have some scattered micro striae including a touch on the high points of the horse head. A small area of natural roughness at the center of the shield is typical for high end pieces. Close to Condition Census for the variety.

1787 NEW JERSEY M.44-d R4 F15 $ 285.00
141.8 grains. Deemed the "Sleigh Rider" obverse by Maris due to the distinctive curving shape of the plow beam. Dark olive brown fields with raised points closer to tan. Despite a few roller striae the surfaces are quite smooth and nicely reflective. Full strong legends and date.

1787 NEW JERSEY M.58-n R5 G4 $ 275.00
161.8 gns. Bold date, and clear horse and plow, and that's what's most important anyway. Overall appealing mottled medium brown and dark toning on reflective surfaces. Late obverse die state, with evidence that the die is shattering. Obverse finely porous, the reverse heavier, with portions of the legends indistinct.

1787 NEW JERSEY M.63-q R1 VF25 $ 350.00
146.3 gns. A Large Planchet variety. Great detail but on dark surfaces. Though the surfaces are granular they are also reflective. Most of the finely etched shield lines are still present on this coin.

CHOICE 1787 M.63-s

1787 NEW JERSEY M.63-s R1 EF40 $ 950.00
138.6 grains. A Large Planchet variety. A choice coin for the grade struck on a smooth glossy olive brown planchet with just light natural texture to its surfaces, and a few tiny contact marks scattered between the two sides. While some early strikings of this and other Large Planchet varieties can show relatively bold central detail on both sides, typically that is not the case. Late strikings can be remarkably weak at both centers. The shield in particular is lightly engraved in the dies. The strike on this coin is in the middle of that range, but stronger than most.

NEW JERSEY SUPERB RUNNING FOX
EX. GEORGE H. EARLE-HILLYER RYDER-FCC BOYD

1788 NEW JERSEY M.77-dd AU50 $22,500.00
Lovely light brown with lustrous surfaces. Fully struck with a finely detailed mane. Fully struck horizontal and vertical shield lines, a full date and more importantly, a fully struck running fox on the reverse. A couple tiny ties on the horse's neck. The finest running fox I have seen. Hillyer Ryder graded this coin "extremely fine" and noted "possibly the finest specimen known." Comes with a tag in Ryder's hand. Ex. George H. Earle collection, Henry Chapman 6/25/12:2120-Hilly Ryder-FCC Boyd-John Ford.

1747 MACHIN'S MILLS VLACK 1-47A $ 350.00
R5 VF20 89.1 grains. Sharp details but on a rough planchet. Dark gold olive toning and actually highly reflective despite extensive granularity. Ragged clip at obverse 9:00 to 11:00. Sharp full legends. Bold full date. This is the only Machin's Mills Imitation halfpence patterned after George II coinage. The only one dated to precede the 1770's and the only one with the Bust facing left.

1771 MACHIN'S MILL V.2-71A $ 325.00
F4 F18 121.4 grains. Chocolate and brown. Free of flaws and striations or marks of much significance. Minor surface roughness.

1774 MACHIN'S MILLS V.8-74A $ 225.00
R4 F12 114.1 grains. A pleasing and glossy example, with even chocolate brown toning and no problems aside from some fine granularity. Full clear legends and date.

1788 MACHIN'S MILLS V.23-88A $ 350.00
R2 VF20 109.0 grains. Your basic choice VF coin. Predominantly light olive toning. Glossy and as smooth as late die states allow. There is some unusual rose colored toning below the legends in part between 11:00 clockwise to 4:00.

1775 IMITATION GEORGE III BRITISH $ 250.00
FARTHING EF409 33.3 grains. Choice glossy chocolate brown. Nicely centered and well struck. The date is complete and strong.

1774 IMITATION GEORGE III BRITISH $ 85.00
HALFPENNY VF25 Repunched 1. 127.5 grains. Ten points sharper but covered with uniform microscopic granularity. No verdigris or marks. Slightly glossy dark steel with lighter steel brown highpoints. The date and legends are very sharp. The 1 in the date was initially punched too low, then corrected.

The obverse is a few points sharper than the reverse, as always with this variety. The date is clear and most of the reverse legend is readable. Half the tiny reverse stars are visible, from just right of the fraction clockwise to ST in STATES. MDS. Not perfect but quite decent for the grade. Pete Smith example #5A. Ex. 1794 S-49 R2 VF25 $ 2,450.00
Nice glossy chocolate brown. There are a few shallow, barely visible planchet voids on the reverse at AM, IT, and through the O in ONE. None of these mint made flaws is at all distracting. EAC SALE 2005

CALL FOR CONSIGNMENTS

It's a great day. I'm driving west on I-10. The CD player is blasting out Ed Fuhrman's band:

"The sunshine has a special glow in California!
One you have to see to truly know in California!
To each his own, that's how it's gotta be.
Through your own eyes, that's the only way to see.
So if you head out just take along
This California song."

It's a 1500 mile drive from Oklahoma City to San Diego. The southern route adds a few miles, but it's a more picturesque drive. I love driving past the beautiful mesas of New Mexico and through the great forests of Saguaro cactus in Arizona. A little extra for gas money and a little more time? It's worth it to go by the most enjoyable route. I was going to the EAC convention in San Diego and in the back of my Ford Expedition I was carrying a couple hundred copies of the EAC Sale catalog featuring Stu Hodge's Collection of Middle Date Cents.

A few months earlier I had received a call from Stu's friend, Ed Jasper. The reason for the call was that Stu had requested that his collection be sold in an EAC auction. Over the next several weeks' conversations with Ed, I came to understand more fully why Stu would choose to sell his collection through an EAC Sale.

The foremost reason for Stu was that he wanted his coins to go to his friends in the club. Maximizing his profit was not his primary concern. Though I think the results of the sale show he did quite well. It was all about the club and the friends that had shared his collecting passion over the years.

It's a cynical time commercially in the coin business. We are seeing thousands of coins being ruined or degraded by chemical cleaning and repair in an effort to get them certified at a higher grade than they maybe are. Not just copper coins, but many coins of every type. These coins are marketed to the naÔve or unwary through telemarketers or more recently on the internet.

I like Stu's way better.

This is our call for consignments to this year's EAC Sale. If you have duplicates to sell, I can't promise you we can maximize the grade for you. And I can't promise you they will be marketed to the worldwide web. But I can promise they will be carefully and fairly described. And they will be sold to the most knowledgeable and appreciative audience there isóyour fellow EAC members.

I think you'll find it the more enjoyable route!

We had a great Colonial Coin Club convention and sale in November. The following are prices realized from the C-4 Sale featuring the collection of Glenn Ivy. Any lots repurchased by the consignor are indicated by a "0". It's not too early to think about consigning to next year's sale! Total Bids were $261,503.00.

FOOTBALL FAN?
THIS COULD BE YOU!

Yes, you could have a SMILE on your face
bedecked in University of Oklahoma Sooner fan couture
just like this former University of Washington fan
after the 2002 Rose Bowl.

Are you a USC alum, a fan of Auburn or the University of Texas or Nebraska?
.....oh, too late for those last two bets!

At stake: a shirt and cap provided by the winner. Photo provided by the loser.
Bets taken by phone or letter, e-mail or fax by 12/31/04!
